INDEX TO SCIENTIFIC NAMES

I. (sub)species

Names of species are printed in *Italic*. Page numbers in normal refer to text, pagenumbers in bold refer to species which are also illustrated. Subgenera are omitted in species names. The varietal names introduced by Locard (1888) and others in the Pectinidae are omitted. For these names we refer to the paper by Wagner, 1991: 3-48.
